Re: Additives

Dear Stan:

As promised, I enclose our "asterisked" list. The asterisks indicate those items which Philip Morris, at this time, designates as commercially sensitive. Therefore, these items should be deleted from any composite list you are preparing. Further, we would like to be advised of the additives from our list which are to be included in the expanded composite list before there is any disclosure of that list. I understand, from our telephone conversations, that you had contemplated such a final clearance anyway, but I thought I would mention it.

I am also enclosing, for your information and use, a second list in a general descriptive format prepared by our Dick Heretick. The headings in this list are patterned after the Hunter list.

Please keep in touch.

Best wishes.

Sincerely,

Fred
